

A palatial crystal chandelier suspends within the Space Needle Lounge. This impressive ring chandelier spanning 132"/3362mm in diameter features a lavish display of crystals each at 18"/457mm in height. Completing this polished design is an antique brass plate that houses recessed downlights for additional illumination. Picking up on the brass hue and amber lights within, this custom chandelier transforms its crystals into an elegant display of cognac opulence.

SPECIFICATION

132"/3362mm DIA x 58"/1473mm H
96 x E12 7W MAX, 2700K LED
16 x GU10 7W MAX, 2700K, Downlight

Suspended above the Pitchbook Suites, glass domes feature a unique layering of textures, matched to specific opacity percentages. The inner dome sits at 50% opacity, the middle dome at 20% opacity, and the outer dome remains 100% clear. This adds dimension and a clean elegance to an otherwise simple form.

SPECIFICATION

The fixture is 20"/508mm in diameter which houses two smaller 12"/305mm and 16"/406mm domes within.

Continuing a similar style, dome pendants are affixed to an existing finished surface, edging the bar in the Mount Baker Hall. The stems are composed of blackened steel and antique brass which suspend a clear seeded glass dome below.

SPECIFICATION

Each metal stem is 58.38"/1482mm long, with blackened steel screws for BX cable access. The clear seeded glass shade below houses 5W COB with dimming capabilities.

An expansive 11-head pendant lights the Möet & Chandon Impérial Lounge. Composed of real brass, the rich hue is complemented by the burnt orange leather wrapped shades that house COB LED.

SPECIFICATION

Each shade is 10.31"/262mm in diameter and houses one 5W COB LED. The lamp has a total height of 30"/763mm and the arms extend to a total length of 232.63/5909mm.

Oversized torchieres line the gorgeous dining area of the Möet & Chandon Impérial Lounge. Standing at impressive heights, the largest being 63"/1608mm, these grand fixtures were custom engineered to branch out and support a large glass shade at each end. The frame is composed of antique brass along with hydrographic wood which is extremely durable, presenting the most realistic genuine wood grain patterns in the market.

SPECIFICATION

Single-armed torchiere:
36.25"/921mm H x
50"/1270mm W

Double-armed torchiere:
57.63"/1464mm H x
83.88"/2130mm W

Triple-armed torchiere:
63.31"/1608mm H x
96.19"/2443.16mm W

CLIMATE PLEDGE ARENA
SEATTLE

DESIGN-ENGINEERING & FABRICATION

VISO Inc., highly acclaimed for its custom capabilities, continues to provide exceptional designs for commercial properties. Rockwell Group, a prestigious interdisciplinary firm, selected VISO to design, engineer and manufacture custom decorative lighting solutions for the Climate Pledge Arena (formerly known as KeyArena). This multi-purpose, 74-acre entertainment complex located north of Downtown Seattle is home to 200 events that take place annually.

Creating individual narratives, the Rockwell Group crafted a unique experience for the interior of the arena. Starting from the conceptual stage with curated sketches, technical drawings, and premium materials, VISO was trusted by the Rockwell Group to provide superior illuminated custom solutions to furnish the arena and its premium spaces.

SPECIFICATION

Available in small, medium, and large, each of these fixtures are installed as single pendants and as clustered groupings within each size class. The small pendant shade is 24"/610mm in diameter and 49"/1245mm tall. The medium pendant shade, with the same diameter as the small pendant, is 67"/1702mm in height. Lastly, the large pendant shade is 34.25"/870mm in diameter and 75"/1905mm tall.

All these light fixtures incorporate RGBW color changing lamps and DMX controls for full customization options.

Oversized, grand wall sconces sit at 66" tall with industrial design elements to complement the exposed pipework that is displayed in the Symetra Club area.

SPECIFICATION

The large wall sconce is 66"/1676mm in height and 6"/152mm wide.

For further illumination in the Symetra Club area, oversized t-shaped wall sconces light the bar tables that line the hallway. This impressive structure supports one blackened mesh drum for a single-armed sconce or two blackened mesh drums for the double-armed sconce. Each of these colossal drums, sitting at 34" in diameter, still offer an airy quality due to its mesh frame.

SPECIFICATION

Single-armed sconce:
102.99"/2616mm L x
66.28"/1683.50mm H

Double-armed sconce:
103.15"/2620mm L x
94.49"/2400mm W x
66.28"/1683.50mm H
Angle between double-arm: 36°

Linear pendants of blackened steel frame the countertops of the Symetra Club area. This strong geometric structure draws beautiful lines across and highlight a robust design.

SPECIFICATION

These linear pendants are
144"/3658mm in length and
146"/3708mm in height.
